

Guidelines for Industry Project

Following contents are to be covered in Documentation

1. Cover Page
2. Acknowledgement
3. Certificate from Company
4. Certificate from Director (Institute)
5. Certificate from Internal Supervisor.
6. Declaration
7. Company Profile
8. Index
9. Introduction of Project
10. Current / Existing System
 - a) Its flow/process
 - b) Its drawbacks
11. Proposed System (Modules, Features, Scope)
12. Hardware and Software Specification
13. Analysis
 - a) Fact Finding Methods
 - b) Process Model, Development Strategy, Type of System
 - c) Diagrams
 1. Estimated Gantt Chart/Time Line Chart
 2. UML Diagrams (Use Case, Activity and Class)
 3. Any Other Diagrams (If any)
14. Design
 - a) Database
 - b) Screens / Forms
 - c) Reports
15. Testing
 - a) Test Cases
16. Future Enhancement
17. References/Bibliography

Following contents are to be covered in Presentation

1. Title Slide
2. Introduction of Project
3. Current / Existing System
 - a) Its flow/process
 - b) Its drawbacks
4. Proposed System (Modules, Features, Scope)
5. Hardware and Software Specification
6. Analysis
 - a) Fact Finding Methods
 - b) Process Model, Development Strategy, Type of System
 - c) Diagrams
 1. Estimated Gantt Chart/Time Line Chart
 2. UML Diagrams (Use Case, Activity and Class)
7. Design
 - a) Database
 - b) Screens / Forms
8. Design
 - a) Database
 - b) Screens / Forms
 - c) Reports
9. Testing
 - a) Test Cases
10. Future Enhancement
